Financial Statements

December 31, 2021 and 2020

Independent Auditors' Report

Board of Trustees Altman Foundation

Opinion

We have audited the accompanying financial statements of the Altman Foundation, which comprise the statements of financial position as of December 31, 2021 and 2020, and the related statements of activities, functional expenses and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Altman Foundation as of December 31, 2021 and 2020, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of Financial Statements section of our report. We are required to be independent of the Altman Foundation and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibility of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Altman Foundation's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditors' Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

Board of Trustees Altman Foundation

Page 2

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of the internal control relevant to the audit in order to design
 audit procedures that are appropriate in the circumstances, but not for the purpose of
 expressing an opinion on the effectiveness of the Altman Foundation's internal control.
 Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Altman Foundation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Notes to Financial Statements December 31, 2021 and 2020

1. Organization

The Altman Foundation (the "Foundation") was established and funded in 1913 by Benjamin Altman, the founder of B. Altman & Co. Under its charter, the Foundation is limited to grants to organizations in New York State. The Foundation supports programs and organizations within the five boroughs of New York City in five major areas: (i) Education; (ii) Health; (iii) Strengthening Communities; (iv) Cultural Engagement, Youth Development, and the Arts; and (v) in the overarching area of Services to Not-for-Profits.

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Foundation have been prepared in conformity with accounting principles generally accepted in the United States of America ("US GAAP"). Net assets and revenues, expenses, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. At December 31, 2021 and 2020, the net assets of the Foundation were without donor restrictions.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value Measurements

The Foundation follows US GAAP guidance on fair value measurements which defines fair value and establishes a fair value hierarchy organized into three levels based upon the input assumptions used in pricing assets. Level 1 inputs have the highest reliability and are related to assets with unadjusted quoted prices in active markets. Level 2 inputs relate to assets with other than quoted prices in active markets which may include quoted prices for similar assets or liabilities or other inputs which can be corroborated by observable market data. Level 3 inputs are unobservable inputs and are used to the extent that observable inputs do not exist. The Foundation follows US GAAP guidance which removed the requirements to categorize within the fair value hierarchy all investments for which fair value is measured using the Net Asset Value ("NAV") per share as a practical expedient.

Notes to Financial Statements December 31, 2021 and 2020

2. Summary of Significant Accounting Policies (continued)

Cash and Cash Equivalents

Cash and cash equivalents represent short-term investments with maturities of three months or less at time of purchase, except for those short-term investments managed by the Foundation's investment managers as part of their long-term investment strategies.

Certificates of Deposit

Certificates of deposit are carried at cost plus accrued interest.

Investments Valuation

Investments are carried at fair value.

Investment Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Realized and unrealized gains and losses are included in the determination of the change in net assets.

Program Related Investments

The Foundation makes Program Related Investments ("PRIs") to other organizations to achieve charitable purposes in alignment with the Foundation's strategies. These investments are either direct loans or via participation in a PRI loan portfolio as part of a limited partnership interest.

Direct loan PRIs bear a below-market interest rate. These loans are initially measured at fair value at inception to determine if a contribution element exists. Loans are then recorded on a net basis to reflect a discount on loan receivable if such discount is material to the Foundation's financial statements and the discount is amortized to grant expense over the term of the loan. In addition, a loss reserve estimate is reviewed on an annual basis and adjusted if collectability risk has significantly changed based on the Foundation's understanding of the borrower's financial health and/or payment history.

Investment in loan PRIs as part of a limited partnership interest are recorded at the amount the partnership expects to collect for the Foundation's interest. Any loss reserve is recorded at the partnership level, and the Foundation's interest is adjusted accordingly.

Furniture, Equipment and Leasehold Improvements

Furniture and equipment, including computer hardware and software, are recorded at cost and depreciated using the straight-line method over periods ranging from five to ten years. Leasehold improvements are recorded at cost and amortized over the term of the lease. The Foundation capitalizes all property and equipment items over \$10,000.

Notes to Financial Statements December 31, 2021 and 2020

2. Summary of Significant Accounting Policies (continued)

Grants

Grants are recorded when authorized by the Board of Trustees.

Concentration of Credit Risk

The Foundation invests its cash and cash equivalents with quality financial institutions. Throughout the year, balances in this account exceeded the Federal insured limits. The Foundation has a diversified portfolio of investments across multiple asset classes, and routinely assesses the diversification and financial strength of its cash and investment portfolio to limit concentration of credit risk.

Deferred Rent and Landlord Incentive

Rent expense is being recognized on a straight-line basis over the life of the lease. The difference between rent expense recognized and rental payments, as stipulated in the lease, is included in deferred rent and landlord incentive on the statements of financial position. In addition, deferred rent and landlord incentive includes a period of free rent provided by the lease and landlord incentive on a portion of the leasehold improvement cost, both of which are being amortized over the life of the lease.

Functional Expenses

The financial statements report expenses by function as either program or supporting activities. This requires expenses to be allocated on a reasonable basis that is consistently applied. The majority of expenses can be identified and charged directly to either program or supporting activities. Depreciation, occupancy and office expenses are allocated using office square footage. Salary and wages, payroll taxes and employee benefits, and technology and computer related expenses are allocated using management's estimate of time and effort.

Accounting for Uncertainty in Income Taxes

The Foundation recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Management has determined that the Foundation had no uncertain tax positions that would require financial statement recognition or disclosure. The Foundation is no longer subject to examinations by the applicable taxing jurisdictions for periods prior to 2018.

Reclassifications

Certain accounts in the 2020 financial statements have been reclassified to conform to the current year financial statement presentation. The reclassification did not result in a change to net assets or ending net assets as of December 31, 2020.

Notes to Financial Statements December 31, 2021 and 2020

2. Summary of Significant Accounting Policies (continued)

Recent Accounting Pronouncements

In February 2016, the Financial Accounting Standards Board (FASB) issued ASU 2016-02, <u>Leases</u> (Topic 842). Under this ASU, a lessee should report at present value a right-of-use asset and a liability for the obligation to make payments under such leases. For leases with a term of 12 months or less, the lessee has an option not to record such leases as assets and liabilities. For the Foundation, the effective implementation date is for the 2022 fiscal year. The standard will have the following material effect on the Foundation's 2022 statement of financial position: upon adoption at the beginning of 2022, there will be the recognition of an operating building lease with liability of \$3,105,249, based on the present value of the remaining minimum lease payments, with a corresponding right-of-use asset for the building of \$2,579,518 The Foundation has one other operating lease more than 12 months for office equipment which is not material to the financial statements. The adoption is not expected to have an impact on the 2022 statement of cash flows.

3. Federal Excise Taxes

The Foundation is a nonprofit organization exempt from Federal income taxes under the provisions of Sections 501(c)(3) of the Internal Revenue Code (the Code) and is a private foundation as defined in Section 509(a) of the Code. The Foundation incurs current federal excise taxes on its net investment income at a rate of 1.39%. In addition, it is required to make certain minimum distributions in accordance with a formula specified by the Internal Revenue Service. For 2021, the Foundation had an undistributed amount of approximately \$590,000 which was distributed by February 2022. For 2020, the Foundation met its minimum distribution amount as of December 31, 2020.

The Foundation also records deferred taxes which arise from unrealized appreciation of investments held at year end, At December 31, 2021 and 2020, a deferred tax liability was calculated at an excise tax rate of 1.39%.

The Foundation is also subject to income tax at corporate rates on certain income that is considered unrelated business income under the Internal Revenue Code.

Notes to Financial Statements December 31, 2021 and 2020

4. Assets Measured at Fair Value

The following are major categories of investments measured at fair value on a recurring basis at December 31, grouped by the fair value hierarchy, for those investments subject to categorization within such hierarchy:

^(*) As discussed in Note 2, investments that are measured using the practical expedient are not classified within the fair value hierarchy.

Notes to Financial Statements December 31, 2021 and 2020

4. Assets Measured at Fair Value (continued)

At December 31, 2021 and 2020 approximately 66% and 67%, respectively, of the Foundation's investment portfolio was invested with certain managers that provided equity or equity-like exposure. Management does not anticipate that losses, if any, resulting from such market concentration would materially affect the financial position and operations of the Foundation.

Information regarding investments valued at NAV using the practical expedient at December 31, 2021 is as follows:

	 Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Global equity (see "a" below) Directional hedge funds (see "b" below) Fixed income (see "c" below) Diversifying hedge funds (see "d" below) International equity (see "e" below) Private equity (see "f" below) Real assets (see "g" below) Real estate (see "h" below) Private credit (see "i" below) Domestic equity (see "j" below)	\$ 13,682,857 7,320,924 12,476,346 34,451,248 19,508,708 85,382,580 10,579,563 17,102,789 27,859,561 4,849,423	\$ - - 22,897,062 1,090,623 8,156,442 12,302,252	Quarterly Quarterly Monthly Monthly/Quarterly Monthly Locked Locked Quarterly / Locked Locked Daily	60 days 45 days 5 days 30-90 days 5-10 days Not applicable Not applicable 45 days / Not applicable Not applicable 1 day
	\$ 233,213,999	\$ 44,446,379		

- a.) This fund's objective is to provide annual long-term returns exceeding the MSCI World Index, investing in primarily equity and equity-related securities of companies with minimum average daily trading volumes of at least approximately \$20 million. Investments may also include over the counter and exchange-traded instruments (including derivative instruments such as options, swaps and futures on equities and equity indices, and other derivatives). This investment is in a commingled fund.
- b.) This manager invests in a combination of long/short funds, with a combination of multi-sector and sector specific funds. This strategy seeks to maintain pace with long only public strategies while offering better protection in down-markets and is implemented through a limited partnership structure. Although this manager has a one-year lockup, currently none of the Foundation's balances are subject to lockup.
- c.) This category includes a manager who seeks to add 60 basis points over the Bloomberg Barclays Capital Aggregate Index, with a strategy that maintains a consistent duration, no non-dollar emerging markets exposure, and limited high yield exposure. The strategy is implemented seeking modest value from small bets on multiple sources; such as sector allocation, security selection and modest duration/yield curve positioning.

Notes to Financial Statements December 31, 2021 and 2020

4. Assets Measured at Fair Value (continued)

- d.) This category includes investments with three hedge fund managers: (i) the first manager is a multi-strategy fund with an event-driven focus, seeking to exploit situations in which announced or anticipated events create opportunities to invest in securities and other financial instruments at a discount to their exit values. The Fund also invests in a long/short equities portfolio of securities that can be readily valued and trade at a discount or premium to the fair value of the underlying assets; (ii) the second manager is a diversified fund, focused on liquid strategies in global equity, futures and foreign exchange markets. It aims to deliver uncorrelated alpha returns, with controlled volatility, across a wide range of market conditions through the systematic application of fundamental, technical, event and alpha capture strategies, and (iii) the third invests in senior secured, asset-based loans that provide growth or bridge financing to lower middle market companies or emerging asset-rich enterprises. It seeks to generate market-leading returns by investing in short duration high yielding assets with low correlation to the general economy and broad equity and bond indices.
- e.) This category includes two fund managers who invest in international, non-United States equities. The strategy of the predominantly developed markets manager aims to deliver long-term capital gains and income from a diversified portfolio of equity securities using a value-oriented style. The strategy of the emerging markets manager is to invest in equities of all capitalizations, with a bias towards small and mid-cap stocks. Both strategies are implemented through a commingled fund vehicle.
- f.) This category includes 20 funds that make control investments in private, non-listed small and medium-sized companies primarily in the North America, Europe and Asia. Vintage years range from 2004 to 2021. These investments cannot be redeemed. Distributions from investments in this category are received through the liquidation of the underlying assets of the fund. For 10 funds, management has estimated that the underlying assets of will be liquidated from between 3 and 177 months. The other 10 funds, representing 34% of this category's total fair value, have reached the partnership termination date and either have no set liquidation date or are continuing until the last investment has been disposed.
- g.) This category includes four partnerships that invest in the energy markets. Two of these partnerships invest primarily in other investment funds, which in turn, make oil, gas and other natural resource related investments with the objective of long-term growth of capital. These two partnerships also may invest in operating companies as direct investment or co-investment opportunities. A third partnership's investment objective is to capitalize on investment opportunities specifically in oil and gas, oilfield service, midstream, transportation and other energy-related assets and companies. This partnership makes investments in senior and junior secured debt investments and may also invest in unsecured debt and equity structures. The fourth partnership was established to focus on energy sector credit opportunities, purchases of secondary market first lien and second lien debt, stressed and distressed loans and bonds, and conveyances of oil and gas real property interests.

Notes to Financial Statements December 31, 2021 and 2020

4. Assets Measured at Fair Value (continued)

Distribution from investments in this category are received through the liquidation of the underlying assets of the funds. These funds have estimated that the underlying assets will be liquidated from between 8 and 24 months.

- h.) This category includes seven real estate funds, of which four invest primarily in U.S. commercial real estate. A fifth fund seeks to purchase portfolios of non-performing loans and non-core assets sold by European financial institutions. A sixth fund makes equity investments in workforce, affordable and mixed income multi-family assets located in the New York City metropolitan area. The seventh manager's strategy is to structure and purchase net lease real estate of primarily non-investment grade tenants with a focus on companies with potential to improve credit. This seventh manager, a real estate investment trust representing 45% of this category's total fair value, permits redemptions with 45 days advance notice prior to the end of a quarter. The other six managers are partnerships which return invested capital as distributions resulting from liquidation of the underlying assets; two of these partnerships have surpassed the expected dissolution dates and will operate until all assets are liquidated, the other four are expected to dissolve from between 7 and 119 months.
- i.) This category includes (i) four funds that invest primarily in senior secured corporate debt instruments, mainly in companies based in North America, and (ii) a fifth fund that invests in less liquid and/or longer duration distressed situations and opportunities resulting from capital dislocations. These managers return invested capital as distributions resulting from liquidation of the underlying assets. These partnerships are expected to dissolve from between 11 and 83 months.
- j.) This United States small cap stock manager utilizes a commingled fund with a strategy to invest in cyclical companies across the growth and value style spectrums. The portfolio holds between 90 - 120 stocks and aims to outperform by at least 2% over a market cycle.

Investment Risks and Uncertainties

A majority of investments consist of non-traditional, not readily marketable investments. The underlying investments of such funds, whether invested in stock or other securities, are generally not currently traded in a public market and typically are subject to restrictions on resale. Values determined by investment managers and general partners of underlying securities that are thinly traded or not traded in an active market may be based on historical cost, appraisals, a review of the investees' financial results, financial condition and prospects, together with comparisons to similar companies for which quoted market prices are available or other estimates that require varying degrees of judgment.

Because of the inherent uncertainty of valuations, the estimated fair values may differ significantly from the values that would have been used had a ready market for such investments existed or had such investments been liquidated, and those differences could be material.

Notes to Financial Statements December 31, 2021 and 2020

4. Assets Measured at Fair Value (continued)

Investment Risks and Uncertainties (continued)

The COVID-19 pandemic has resulted in substantial volatility in the global financial markets. Because the value of the Foundation's individual investments has and will fluctuate in response to changing market conditions, the amount of losses, if any, that will be recognized in subsequent periods cannot be determined.

5. Program and Mission Related Investments

Program related investments ("PRIs"), defined in IRC 4944(c), have a primary purpose of advancing the mission of the Foundation without a significant purpose of the production of income or appreciation of investment. PRIs are treated as charitable distributions on Internal Revenue Service form 990-PF, the tax and information return filed by private foundations for minimum-distribution requirement purposes.

At December 31, 2021, the Foundation maintained an interest in a PRI loan portfolio that contained seven investments as part of a limited partnership interest. These investments are expected to be redeemed between 2022 and 2026. There is an unfunded commitment of approximately \$238,000 to the partnership at December 31, 2021. The Foundation did not have any direct loans at December 31, 2021. Allowances for collectability of this PRI loan portfolio are performed at the partnership level and the Foundation's interest is adjusted accordingly.

Expected repayments are as follows:

2022	\$ 475,000
2023	390,625
2024	100,000
2025	500,000
2026	 252,512
	\$ 1,718,137

Mission Related Investments ("MRI's") are investments which also advance the Foundation's charitable purpose and mission. However, returns on MRI's are risk adjusted or market-rate. At December 31, 2021, the Foundation maintained six mission-related investments totaling \$3,127,415 which are included in investments on the statements of financial position.

6. Retirement Plans

The Foundation maintains a defined contribution 401(k) plan for eligible employees and makes the following contributions:

(i) Employee contributions are permitted with the Foundation matching 100% of basic contributions up to a maximum of 5% of salary per employee. In 2021 and 2020, employer matching contributions were approximately \$63,000 and \$61,000, respectively.

Notes to Financial Statements December 31, 2021 and 2020

6. Retirement Plans (continued)

- (ii) The employer makes a safe harbor nonelective contribution in the amount of 3% of eligible compensation. For both 2021 and 2020, such amounts were approximately \$39,000.
- (iii) Plan provisions permit the employer to make an annual discretionary profit-sharing contribution which is determined by the managing body of the Foundation. For 2021 and 2020, these contributions were approximately \$71,000 and \$64,000, respectively.

The Foundation has a non-qualified Section 457(b) retirement plan for a select group of employees. Employee contributions are on a pre-tax basis in amounts not to exceed Internal Revenue Code limits. The Foundation may make contributions on behalf of participants. In 2021 and 2020 there were no employer contributions. The corresponding asset and liability related to this plan amounted to \$321,626 and \$264,987 as of December 31, 2021 and 2020, respectively. Such amounts are not presented in the accompanying statements of financial position.

7. Commitments and Contingencies

Office Leases

The Foundation has a non-cancellable operating lease through December 2030 for office space in New York City. In lieu of a security deposit, the Foundation maintains an open letter of credit in the amount of \$173,432, which has automatic annual extensions. This lease requires minimum annual rental payments with escalations through the lease expiration date. In addition, the lease requires payment of utilities, real estate taxes and other expenses. Rent expense for this lease was approximately \$409,000 and \$407,000 for 2021 and 2020, respectively.

At December 31, 2021, the liability for deferred rent and landlord incentive of \$525,731 included unamortized amounts for deferred rent of \$294,703 and landlord incentive of \$231,028. At December 31, 2020, such liability was \$567,058 and consisted of unamortized deferred rent of \$310,361 and landlord incentive of \$256,697.

Minimum lease payments by fiscal year are as follows:

2022	\$ 380,819
2023	380,819
2024	380,819
2025	380,819
2026	413,354
Thereafter	 1,653,416
	\$ 3,590,046

Notes to Financial Statements December 31, 2021 and 2020

7. Commitments and Contingencies (continued)

Lines of Credit

The Foundation had a secured revolving line of credit agreement with a bank for \$10,000,000, which expired on June 24, 2020. Effective September 21, 2020, the Foundation established a new line of credit with another bank for \$15,000,000. The initial renewal date on this new line of credit was July 15, 2021, with automatic one-year renewals It was renewed on July 15, 2022, and the next renewal date will be July 15, 2023. There were no borrowings against either line during 2021 or 2020. Both lines bear interest as defined in the agreement. Any borrowings are secured by certain assets of the Foundation.

8. Furniture, Equipment and Leasehold Improvements

At December 31, 2021 and 2020, furniture, equipment and leasehold improvements, net at the Foundation were as follows:

	2021	2020
Leasehold improvements	\$ 973,821	\$ 973,821
Furniture and equipment Computer hardware and software	195,809 184,109	195,809 184,109
Less accumulated depreciation and amortization	1,353,739 <u>739,473</u>	1,353,739 632,753
	<u>\$ 614,266</u>	\$ 720,986

Depreciation and amortization expense for 2021 and 2020 was \$106,720 and \$106,975 respectively.

9. Grants Payable

The Foundation has entered into grant commitments to certain organizations. Payments to these organizations at December 31, 2021 and 2020 are to be made as follows:

	2021	2020
	A 0 004 575	A. 0. 70.7.00.5
Less than one year	\$ 2,924,575	\$ 2,787,925
One to two years	_	225,000
Total Grants Payable	<u>\$ 2,924,575</u>	\$ 3,012,925

Notes to Financial Statements December 31, 2021 and 2020

10. Liquidity and Availability of Financial Assets

The Foundation's financial assets and resources available to meet general operating cash needs within one year of the dates of the statement of financial position were as follows:

	December 31		
	2021	2020	
Financial Assets			
Cash	\$ 185,408	\$ 334,724	
Investments	319,485,927	290,546,497	
Program related investments	1,718,137	1,685,906	
Total Financial Assets	321,389,472	292,567,127	
Less:			
Illiquid investments Program related investments to be	133,271,674	100,160,402	
collected beyond one year	1,243,137	1,435,906	
Financial Assets Available to Meet General Operating Cash Needs	\$ 186,874,661	\$ 190,970,819	
. 5		· · · ·	

As part of the Foundation's liquidity management, it has a policy to structure its financial assets to be available as its grants, operating disbursements, program related investment and limited partnership capital calls come due. Sources of liquidity throughout the year include (i) proceeds from planned redemptions of investments as needed, (ii) cash distributions from its various limited partnership investments, and (iii) repayment of program related investments.

In the event of unanticipated liquidity needs, the Foundation can draw upon a committed line of credit (Note 7). In addition, the Foundation aims to maintain a balance of cash equivalents and other short-term investments to be used in conjunction with a portion of the committed line of credit to fund one year's worth of grants and operating expenses. Lastly, there is a minimum liquidity requirement to maintain at least three years of grants and operating expenses in investments that can be redeemed within one month.

Included in the 2021 and 2020 general operating cash needs of the Foundation is the Internal Revenue Service regulation to distribute a minimum amount for charitable purposes which approximates 5% of its assets, with certain adjustments, as of December 31, 2021 and 2020.

11. Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which is September 27, 2022.

* * * *
